WATERLESS AEROBIC BIODIGESTER

A small-footprint food waste processing solution that easily fits into almost any operation.

MASTER DISTRIBUTOR OF HARP RENEWABLES

This on-site, continuous-feed biodigester converts food waste into a nutrient-rich soil amendment in 24 hours, without water.

/ QUICK STATS

- Process food waste, including meat, shells and bones. BPI certified products can be accepted
- Material is heated to 160° F to kill pathogens and toxins, while enzymes, rotation, and airflow create optimal decomposition
- Produce a stable, nutrient-rich, high-value amendment for compost or soil for optimized plant growth
